

Aria Pan

530-302-6132 • ariapan@usc.edu • github.com/ariaastrocyte

EDUCATION

University of Southern California | Los Angeles, CA

Aug 2026 – Expected 2029

B.S. in Applied and Computational Mathematics

University of California, Davis | Davis, CA

Aug 2025 – Jun 2026

GPA: 4.0/4.0

Undergraduate Coursework: Linear Algebra, Multivariable Calculus, Statistics, Differential Equations

TECHNICAL SKILLS

Languages: Python, JavaScript, Bash

Tools & Libraries: PyTorch, pandas, NumPy, scikit-learn, Hugging Face, Matplotlib, Git, VS Code, Jupyter Notebook, Google Colab, Linux shell, SLURM

EXPERIENCES

Undergraduate Researcher | Information Extraction & Knowledge Graph

Apr 2026 – Present

Nell Hodgson Woodruff School of Nursing, Emory University | Advisor: Prof. Jiaying Lu

- Built pipelines to convert large-scale daycare inspection PDFs and markdown reports into structured tabular datasets for downstream analysis.
- Designed and organized spreadsheet-style datasets with report metadata, inspection findings, regulatory categories, and extracted event records.
- Exploring knowledge graph representations to model extracted entities, events, and regulatory relationships for downstream analysis.

Undergraduate Researcher | Feedback-driven Data Augmentation Agent

May 2026 – Present

Department of Electrical and Computer Engineering, UC San Diego | Advisor: Prof. Pengtao Xie

- Developed a data-centric AI agent for synthetic data generation, downstream model evaluation, and feedback-driven dataset improvement.
- Built experiment workflows for dataset splitting, generated data pools, evaluation policies, feedback ingestion, and result tracking.
- Investigated how model failure patterns and evaluation signals can guide future data augmentation strategies and improve dataset quality.

HONORS & AWARDS

Dean's Honor List, University of California, Davis

Dec 2025

International Genetically Engineered Machine (iGEM) Competition, Gold Medal

Nov 2024
